

## Wall Clocks | Desk Clocks

With the diversity of materials used and their sculptural shapes, George Nelson's clocks embody the joie de vivre of the 1950s. To this day, his wall- and table clocks remain a refreshing alternative to the usual timekeepers. The Vitra Design Museum presents a re-edition of the designs so cherished by collectors – in a true-to-the-original form.

## Zoo Timers

As a truly multi-talented designer, George Nelson was also successful as a graphic designer. His Zoo Timers – strongly colourful personalities from the animal kingdom – contrast sharply with his sculptural wall clocks from the 1950s thanks to their graphic touch. The Zoo Timers offer children a playful and enjoyable approach to telling the time.

**Sunburst Clock**  
Ø 470 mm / 18 1/2"

**Spindle Clock**  
Ø 577 mm / 22 3/4"

**Steering Wheel Clock**  
Ø 305 mm / 12"

**Petal Clock**  
Ø 448 mm / 17 1/2"
